

The Trusted Voice on Michigan's
Auto No-Fault System

The Coalition Protecting Auto No-Fault

The Coalition Protecting Auto No-Fault (CPAN) is a broad coalition of healthcare providers, consumer advocate groups and individuals working together in the courts and legislature to uphold auto accident survivors' rights to quality medical care and rehabilitation under the Michigan Auto No-Fault System.

Fighting For:

Quality Benefits – CPAN believes every Michigan driver has a right to make as full and complete a recovery as possible. We are fighting to prevent caps on medical coverage and ensure all auto accident victims' rights to no-fault medical care for the duration of their injury are maintained.

Affordable Insurance – Because Michigan law requires all drivers to carry auto no fault insurance, it is essential that state regulators have the authority to make sure auto insurance premiums are fair and affordable. CPAN is working to increase transparency and oversight of the insurance industry.

Fair Treatment – Michigan policyholders dutifully pay their insurance premiums with the expectation that their insurance company will be there for them if the worst should happen. Too often insurance companies will delay, deny and defend claims in attempts to squeeze more profit. CPAN is fighting to hold insurance companies accountable.

Become a Member

CPAN provides a powerful, bi-partisan legislative voice that is fighting to ensure Michigan's model auto no-fault insurance system remains intact. We need your help!
